AI Analysis

Generate AI Report

System Performance Summary

- Total logs: 1950
- Anomalies: 91
- Average response time: 211.92 seconds
- Maximum response time: 1683.91 seconds
- Most affected service: Payment API

Key Trends Observed

- High average and maximum response times suggest a potential bottleneck in the system.
- Payment API is consistently among the most affected services, indicating a possible issue with this service.
